RULES AND REGULATIONS

I. SERVICE REQUIREMENTS.

A. Application. Any person or other entity holding property having reasonable accessibility to the source of and who is in need of having water supplied to his place of occupancy or property may apply for service by U. S. 60 Water District ("District"). All customers shall sign such documents, including the contract for water service, as may be provided and required by the District, provided that no person or entity otherwise eligible shall be permitted to become a customer of the District if the capacity of the District's water system, either in general or as to a particular area or line, is exhausted by the needs of its existing customers.

B. Tap-on Fees. A tap-on fee of FIVE HUNDRED FIFTEEN (\$515.00) (I)* DOLLARS shall be made for each new meter installation where a 5/8 by 3/4 inch meter is used regardless of location. A tap-on fee of SIX HUNDRED (I)* FIFTEEN (\$615.00) DOLLARS shall be made for each new meter installation where a one inch meter is used regardless of location. The tap-on fee for meters exceeding one inch shall be the actual cost incurred by the District in purchasing and installing that particular new meter.

C. Deposit and Interest. The District will require a minimum (C) cash deposit or other guaranty to secure payment of bills except for customers qualifying for service re-connection pursuant to 807 KAR 5:006, Section 15, Winter Hardship Re-connection. Service will be refused or discontinued for failure to pay the requested deposit. Interest, as required by KRS 74.085, will be paid annually on the deposit, either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The District may at its discretion waive a customer's deposit upon (C) a showing of satisfactory credit or payment history. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The District may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit

SHELBY AND FRANKLIN COUNTIES

RULES AND REGULATIONS

and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

In determining whether a deposit will be required or waived, the following criteria will be considered: (C)

1. Previous payment history with the District. If the customer has no previous history with the District, statements from other utilities, banks, etc. may be presented by the customer as evidence of good credit.
2. Whether the customer has an established income or line of credit.
3. Length of time the customer has resided or been located in the area.
4. Whether the customer owns property in the area.
5. Whether the customer is a governmental entity.
6. Whether the customer has filed bankruptcy proceedings within the last seven years.
7. Whether another customer with a good payment history is willing to sign as a guarantor for an amount equal to the required deposit.

If a deposit is held longer than 18 months, the deposit will at the customer's request be recalculated based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential customer, the District may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation. (C)

RULES AND REGULATIONS

Calculated Deposits

(C)

All customers' deposits shall be based upon actual usage of the customer at the same or similar premises for the most recent 12-month period, if such information is available. If usage information is not available, the deposit will be based on the average bills of similar customers and premises in the system. If there are no similar customers in the system, the deposit will be based on the utility's good faith best estimate of the customer's projected annual bill. The deposit amount shall not exceed 2/12 of the customer's actual or estimated annual bill where bills are rendered monthly.

The District's billing form is attached hereto as Exhibit A.

(C)

D. Nonstandard Service. Any customer shall pay the cost of any special installation necessary to meet his/her peculiar requirements for service other than standard water tap.

E. Water Line Installation. No service will be installed unless there is a main distribution line existing along the road from which service is requested. The District will install at its expense that portion of the service line extending from the main line to and including the curb box or curb stop on the customer's property immediately adjacent to the right of way of the road along which the main line exists.

F. Easements. Each customer, together with his/her spouse and all other real estate title owners, shall grant or convey to the District, without cost, any permanent easements reasonably required by the District for the installation and maintenance of the District's meter and water lines, both existing and future, and for reading that meter at a point on the customer's property to be designated by the District for each meter, with right of ingress and egress for these purposes over the customer's property, provided such meter and lines are located on real estate owned, rented or otherwise controlled by the customer and such lines (except for the line leading to the customer's meter) are adjacent and parallel to the right of way for a

RULES AND REGULATIONS

public roadway. The failure or refusal to convey such easements shall constitute grounds for discontinuing service.

G. Customer Certificate. The District may issue to every customer a certificate showing the name of the customer, location of the initial premises occupied, date issued, and amount of fee.

H. No Cross Connections. Each customer acknowledges the need to avoid contamination of the District's water system by introduction of foreign water, and therefore each customer agrees that the customer's present water supply, if any exists, will be disconnected prior to connecting to the District's water system. The customer will not connect to any other water supply while connected to the District's water system.

I. Customer's Service Line. The customer will install and maintain at customer's expense a service line which shall begin at the water meter and extend to the dwelling or other point of use on the customer's premises. All service lines shall be installed of material (for example copper, galvanized, or PVC pipe) rated at 200 psi or more. The size of service line beyond the point of delivery should not be less than 3/4"; however, a larger size may be needed to provide adequate service. If the customer's point of use is at a higher elevation than the point of delivery, the customer should consult with a reputable engineering firm to size the service line from the point of delivery. The customer will be responsible for all water loss occurring on the customer's side of the water meter. The customer shall also be responsible for any damage to the District's water lines and meter which occurs while the customer or his contractor are connecting to the meter.

RULES AND REGULATIONS

- J. Inspection of Service Line. In the installation of a service line, the customer shall leave the trench open and pipe uncovered until it is inspected by the District and shown to be free from any tee, branch connection, irregularity, or defect.
- K. Customer's Cut-off Valve. The customer shall furnish and maintain a private cut-off valve on the customer's side of the meter.
- L. Separate Meters. A separate meter shall be installed for service to each residential or business unit. The customer will not permit anyone else to connect to the District's water line or meter or the customer's service line without the prior written consent of the District. Water furnished for a given residential or business unit shall be used on that unit only.

II. DISCONTINUANCE OF SERVICE.

- A. Involuntary Termination. The District may in accordance with 807 KAR 5:006 Section 11 refuse to connect or may remove the meter and/or discontinue service for the following reasons:

1. Violation of (1) any of its Rules and Regulations, or (2) any of the provisions of the Schedule of Rates and Charges, or (3) any of the provisions of the Contract for Water Service or other documents signed by the customer, provided the required 10 day written notice has been given.

- B. All Bills. Bills will be rendered monthly. Bills are due when rendered. If not paid within ten (10) days of the date they are mailed by the District, a penalty equal to ten percent (10%) of the bill will be applied and a 10-day notice of intended disconnection may be mailed. If a bill remains unpaid twenty (20) days after it is mailed, and the customer has been given the minimum 48-hour written notice required by 807 KAR 5:006 Section (3)(a), the service will be discontinued. Should the final date for payment of the bill fall on a Sunday or holiday the business day next following the final date will be held as a day of grace for delivery of payment. Failure to receive bills or notices shall not prevent such bills from becoming delinquent nor relieve the customer from payment.
- C. Responsible Person. The person or entity who signs the Contract for water service or its equivalent shall be responsible for payment of all bills incurred in connection with the service rendered.
- D. Bad Check Fee. The District may charge the customer any service charge which the District pays as a result of the customer's bad check.
- E. Tax Surcharge. In addition to the collection of regular rates, the District may collect from the customer a proportionate share of any privilege, sales use or other tax or fee which may be imposed.

VI. DISTRICT'S OBLIGATIONS.

- A. Installation and Maintenance of Water Lines. The District will install, maintain and operate at the District's cost a main pipeline or lines from the source of water supply to a point on the property of each customer, designated as the delivery point, where a meter to be purchased, installed, owned and maintained by the District, shall be placed. The District will also purchase and install a cut-off valve in each service line from its main distribution line or lines, such cut-off valve to be owned and maintained by the District and to be installed on some portion of the service line owned by the District. The District shall have the sole and exclusive right to the use of such cut-off valve.
- B. District's Liability. The District shall not be liable for damage of any kind whatsoever resulting from water or the use of water on the customer's premises, unless such damage results directly from negligence on the part of the District. The District shall not be responsible for any damage done by or resulting from any defects in piping, fixtures, or appliances on the customer's premises. The District shall not be responsible for negligence of third persons, or forces beyond the control of the District resulting in any interruption of service.
- C. Interruption of Service. The District will use reasonable diligence in supplying water service, but shall not be liable for tort or breach of contract in the event of, or for loss, injury, or damage to persons or property resulting from interruptions in service, excessive or inadequate water pressure, or otherwise unsatisfactory service, whether or not caused by negligence.

- D. No Fire Protection Service. The District provides only domestic water service to rural residences and businesses. The District does not provide fire protection to its customers or to others. Fire protection must be provided on site by the customer using means other than the District's distribution system.
- E. Fire Hydrants. The fire hydrants installed on the distribution lines of this District are for the sole purpose of flushing the lines, or other uses by the District necessary for proper maintenance of the lines. The District is not responsible for, nor does it guarantee, any minimum pressure or flow at these hydrants, other than the minimum required by the Public Service Commission for distribution lines. If these fire hydrants are used by fire protection units in the performance of their duty, any damage to the distribution lines resulting from excessive pumping pressure will be the liability of that unit.
- F. Minimum Line Size. The District shall not install any new distribution water lines or accept any existing distribution water lines less than four (4) inches in diameter. A service line leading to a customer's single meter may be a smaller diameter.
- G. Monitor Bills For Unusual Variance. The District shall continue computer monitoring of the customer's meter readings for unusual usage variances, which monitoring process shall include a printout, prior to actual billing, of any such unusual variances. If the customer's usage is unduly high and the deviation is not otherwise explained, the District shall test the meter in accordance with 807 KAR 5:006, Section 9.

SHELBY AND FRANKLIN COUNTIES

RULES AND REGULATIONS

VII. DISTRIBUTION EXTENSIONS

Any person desiring an extension to the District's system shall request same in writing on a form approved by the District for such extensions. Any requested extension shall be provided as follows:

The District shall determine the total cost of the proposed water main extension (exclusive of the meter connection) and the total length of the extension. The District shall pay that portion of the cost of the water main extension equal to 50 feet for each applicant for service (the "50' rule contribution" as required by 807 KAR 5:066 §12(1)). That part of the cost not covered by the District's portion shall be contributed equally by those applicants desiring service on the main extension. Each applicant will also be required to pay the District's approved "Tap-on-fee" for a meter connection to the main extension.

For a period of ten years after the original construction of the main extension each additional customer directly connected to each particular extension will be required to contribute to the cost of that water main extension based on a recomputation of both the District's portion of the total cost and each customer's contribution as set out above. The District must refund to those customers that have previously contributed to the cost of each main extension itself that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to that extension. All customers directly connected to each main extension for a ten year period after it is placed in service are to contribute equally to cost of construction of the water main extension itself. In addition each customer must pay the approved "Tap-on-fee" applicable at the time of their application for the meter connection. The "Tap-on-fee" is not part of the refundable cost of the extension and may be changed during the refund period.

RULES AND REGULATIONS

Monitoring of Customer Usage

(C)

At least once annually the District will monitor the usage of each customer according to the following procedure:

1. The customer's annual usage for the most recent 12-month period will be compared with the annual usage for the 12 months immediately preceding that period.

2. If the annual usage for the two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions, common to all customers, no further review will be done.

3. If the annual usages differ by 100% or more and cannot be attributed to a readily identified common cause, the District will compare the customer's monthly usage records for the 12-month period with the monthly usage for the same months of the preceding year.

4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the District will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.

5. Where the deviation is not otherwise explained, the District will test the customer's meter to determine whether it shows an average error greater than 2% fast or slow.

6. The District will notify the customers of the investigation, its findings, and any refunds or back-billing in accordance with 807 KAR 5:006, Sections 10(4) and (5).

In addition to the annual monitoring, the District will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or customer inquiry.

RULES AND REGULATIONS

would otherwise be paid to the District shall then be evenly divided between all applicants other than the District.

VIII. MISCELLANEOUS

- A. Additional Rules and Regulations. These Rules and Regulations are in addition to the rules of the Kentucky Public Service Commission.
- B. Revisions. These Rules and Regulations may be revised, amended, supplemented, or otherwise changed from time to time without notice to customers, but only after thirty (30) days notice to the Public Service Commission. Such changes, when effective, shall have the same force as the present Rules and Regulations.
- C. Conflict. In case of conflict between any provisions of any rate schedule and these Rules and Regulations, the rate schedule shall prevail. In case of conflict between any P.S.C. rules and regulations and these Rules and Regulations or rate schedules, the P.S.C. rules and regulations shall prevail.
- D. Scope. These Rules and Regulations are part of all contracts for receiving water service from the District, and apply to all service received from the District whether the service is based upon contract, agreement, signed application, or otherwise. A copy of these Rules and Regulations, together with a copy of the District's Rate Schedule, shall be kept open to inspection at the office of the District.

PUBLIC SERVICE COMMISSION MANAGER

Definitions. The word "District" used herein applies to the U. S. 60 Water District. The word "Customer" used herein applies to the customers of said District.

DATE OF ISSUE March 21, 1990 DATE EFFECTIVE May 1, 1990

ISSUED BY

Ron Osborn

TITLE: Chairman

U.S. 60 WATER DISTRICT OF
SHELBY AND FRANKLIN COUNTIES

RULES AND REGULATIONS

After the ten-year refund period expires, any additional customer applying for service on each main extension must be connected for the amount of the approved "Tap-on-fee" only.

All taps and connections to the extended line shall be made by District personnel.

It is the District's policy to use surplus District revenues to assist, in a nondiscriminatory manner, the extension of the District's water distribution system to areas not yet served by public water systems. When the District's surplus revenues permit, the District finds that there is a substantial opportunity for repayment of the District's additional contribution to construction costs, the District finds that the proposed extension will not otherwise be constructed, and the initial applicants unanimously agree, the District may, under the restrictions of this rule, contribute additional construction funds (over and above the 50' rule contribution) for the purpose of reducing each initial applicant's required contribution.

When this occurs the District shall treat itself as one or more additional applicants, and shall accordingly contribute additional construction funds in an amount equal to each applicant's required contribution times the number of the District's contributions as an applicant(s). The District shall also contribute the appropriate additional sums under the 50' rule. All applicants other than the District shall execute in favor of the District a written assignment of each applicant's future refunds under this rule. Each refund so received shall be applied by the District toward the District's construction contribution for the water main extension (but not including the District's additional 50' rule contributions). Once the District's construction contribution has been repaid in full the assignments shall expire and all future refunds shall be paid directly to all applicants other than the District. In addition those refunds which

WATER SHORTAGE RESPONSE PLAN OF THE U.S. 60
WATER DISTRICT OF SHELBY AND FRANKLIN COUNTIES PUBLIC SERVICE
COMMISSION

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the U.S. 60 Water District of Shelby and Franklin Counties (hereinafter the "District") in the event a shortage is declared. Nothing in this Plan shall be construed to interfere with common law riparian or statutory water rights.

Section 2. Definitions. These terms are applicable only for this Plan unless specifically noted.

- A. "Customer" shall mean any person or entity using water for any purpose from the District water distribution system.
- B. "Raw Water Supplies" shall mean all water potentially available to persons in the District.
- C. "Treated Water" shall mean water that has been introduced by the District into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

Essential Water Uses (Class 1):

The following uses of water are essential.

Domestic:

- water necessary to sustain human life and to maintain minimum standards of hygiene and sanitation.

Health Care Facilities:

- patient care and rehabilitation, including related filling and operation of swimming pools for health purposes only at an established health care facility.

Water Hauling:

- sales for domestic use where not reasonably available elsewhere.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

JUL 30 1990

PURSUANT TO 207 KAR 5.011,
SECTION 9.02

[Handwritten signature]

Public Use:

- firefighting, health and public protection purposes, if specifically approved by health officials.

Socially or Economically Important Uses (Class 2):

The following uses of water are socially or economically important.

Domestic:

- personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

- non-domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

- commercial car and truck washes,
- laundromats
- restaurants, clubs and eating places
- schools, churches, motels/hotels and similar commercial establishments.

Outdoor Non-Commercial Watering (using conservation methods and when other sources of water are not available or feasible to use):

- minimal watering of vegetable gardens,
- minimal watering of trees where necessary to preserve them.

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

- agricultural irrigation for the production of food and fiber or the maintenance of livestock,
- watering by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimens,

- watering by commercial nurseries at a minimum level necessary to maintain stock,
- watering of woody plants where necessary to preserve them,
- minimal watering of golf course greens.

Recreational:

- operation of public swimming pools and private pools that serve more than 25 dwelling units.

Air Conditioning

- refilling for startup at the beginning of the cooling season,
- makeup of water during the cooling season,
- refilling specifically approved by health officials where the system has been drained for health protection or repair services.

Miscellaneous

- any use not otherwise listed under Class 1 or Class 3.

Non-Essential Uses (Class 3):

The following uses of water are non-essential.

Public Use:

- use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus and fire department drills,
- flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

Commercial and Civic Use:

- serving water in restaurants, clubs, or eating places, except by customer request,
- increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount required to support fish and wildlife.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

JUL 30 1990

PURCHASER TO RETURN TO:

BY *[Signature]*

Ornamental purposes:

- fountains, reflecting pools and artificial waterfalls.

Outdoor Non-Commercial Watering:

- use of water for dirt control or compaction,
- watering of annual or non-woody plants, lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

Outdoor Commercial or Public Watering:

- expanding nursery facilities, placing new irrigated agricultural land in production, or planting of landscaping,
- use of water for dirt control or compaction,
- watering of annual or non-woody plants, lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts and other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

Recreational uses other than those specified in Class 2.

Non-commercial washing of cars, other vehicles and other outdoor property.

Air Conditioning (see also Class 2 purposes).

- refilling cooling towers after draining.

JUL 30 1990

Waste of water, including but not limited to the failure to repair a controllable leak.

- D. "Base Entitlement" shall mean the monthly usage for a customer during the same month of the preceding calendar year or the average per customer usage for each class of service during the same month of the preceding year.
- E. "Curtailed Entitlement" shall mean the monthly usage permitted for a customer after the Base Entitlement has been reduced by the curtailment percentage.
- F. "Curtailment" shall mean the reduction in Base Entitlement by some percentage to meet anticipated water shortages.
- G. Water Shortage Response Phases:
 - (1) "Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.
 - (2) "Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.
 - (3) "Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.
- H. "Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this Plan shall apply to all retail and wholesale customers of the District. When implemented, this Plan becomes the U.S. 60 Water District Water Shortage Response Regulation.

Section 4. Entitlement. Entitlement shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Whenever the District's manager believes that a water shortage may be

JUL 30 1990

PURSUANT TO KRS 202.0011,
SECTION 5 OF
THE DISTRICT'S WATER SHORTAGE RESPONSE REGULATION IS
EFFECTIVE

imminent, water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Manager of the District, with written notification to the County Judge Executives of Shelby and Franklin Counties.

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies or service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Manager of the District.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

- (1) Criteria: A water advisory may be declared whenever the manager of the District finds that a potential shortage of the supply of raw or treated water exists or will exist.
- (2) Conservation and Curtailment Measures:
 - (a) Declare a WATER SHORTAGE ADVISORY.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Request voluntary conservation of all water use.
 - (e) Request wholesale customers also issue request for voluntary conservation by their customers of all water use.

B. Alert Stage:

- (1) Criteria: A water shortage alert may be declared whenever the manager of the District finds that a condition exists where the District will not be able to meet the expected needs of its customers.

(2) Conservation and Curtailment Measures:

PUBLIC SERVICE
COMMISSION

- (a) Declare a WATER SHORTAGE ALERT.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Request voluntary conservation of all water use.
- (e) Prohibit all non-essential (Class 3) water uses.
- (f) Curtail Entitlement to all customers by the same percentage as the projected shortage.
- (g) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$10.00 per 1,000 gallons.

C. Emergency Stage:

- (1) Criteria: A water shortage emergency may be declared whenever the manager of the District finds that the District is unable to meet the expected needs of its customers and that such a condition will exist for some period of time in the future.

(2) Conservation and Curtailment Measures:

- (a) Declare a WATER SHORTAGE EMERGENCY.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all non-essential (Class 3) water uses.
- (e) Prohibit all Class 2 uses of water except Domestic uses for kitchens, bathrooms and laundries, and water necessary to sustain livestock life.
- (f) Curtailed Entitlement to all customers the same percentages as the projected shortage.

EFFECTIVE

JUL 30 1990

ON 10/17/90 TO 10/17/90 KAP 5/011,

10/17/90
Thomas A. Keller
DISTRICT MANAGER

- (g) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$25.00 per 1,000 gallons.

D. Rationing Stage:

- (1) Criteria: Water shortage rationing may be declared whenever the manager of the District finds that the District is unable to meet the expected needs of its customers and that such a condition will exist for some period of time in the future, and upon approval by the commissioners of the District that mandatory rationing is required to insure adequate water is available to maintain public health and safety.
- (2) Conservation and Curtailment Measures:
 - (a) Declare WATER SHORTAGE RATIONING.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Prohibit all Class 3 and Class 2 uses of water.
 - (e) Curtailed Entitlement to all customers by the same percentage as the projected shortage.
 - (f) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.
 - (g) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$50.00 per 1,000 gallons.

Section 8. Enforcement of Water Restriction. Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibilities imposed by this Plan, or who impedes or interferes with any action undertaken or ordered pursuant to this Plan shall be subject to the following:

- (a) If the utility official charged with implementation and enforcement of this Plan learns of any violation of any water use restriction imposed, including but not limited to exceeding a

JUL 30 1990

OFFICE OF THE COMMISSIONER
OF KENTUCKY
EFFECTIVE

Curtailed Entitlement, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within 48 hours.

- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.
- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to the approved reconnection fee prior to reconnection of service.

Section 9. Request for Exception.

- (a) Exception to water use restriction: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the Board of Commissioners of the District for an exception. For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then an exception shall be granted and a written waiver issued to the customer. If an appeal is made, normal water service shall be continued until a decision is announced. Any customer aggrieved by the decision may file a complaint with the Public Service Commission.
- (b) No Exception to curtailment surcharge: Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this Plan is declared invalid by the courts, the remainder of the Plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This Plan shall take effect immediately upon approval of the Public Service Commission.

SAMPLES ROAD, AND CRAWFORD ROAD IN SHELBY AND ANDERSON COUNTIES

** ** ** ** **

RECEIVED

Applicant's Name: _____ SEP 17 1993
First Middle Initial Last

Mailing Address: _____ PUBLIC SERVICE COMMISSION

Service Address: _____ Telephone # _____

1. Applicant hereby applies for water service from the District upon the terms and conditions set forth in this contract.

2. Applicant agrees to pay, at the time of signing this contract, a deposit in the amount of \$35.00, which is refundable upon termination of water service and payment of all accounts owed.

3. Applicant agrees to purchase water service under rates, policies, rules and regulations fixed by the District and approved by the Kentucky Public Service Commission. Copies are available for inspection at the District's office in Bagdad, Kentucky.

4. Applicant agrees to pay the District's minimum monthly water bill as soon as water is made available to the meter.

5. Applicant grants District a perpetual easement over Applicant's land to install, construct, maintain, repair, and remove existing and future water pipelines, appurtenant facilities, and meters, the right to read those meters, and the right of ingress and egress for these purposes over Applicant's property.

6. Applicant will maintain at Applicant's expense a service line which shall begin at the water meter and extend to the dwelling or other point of use on Applicant's premises. Applicant will be responsible for all water loss occurring on Applicant's side of the water meter.

7. Applicant agrees to provide without cost to the District any properly signed recordable easements required by the District for the installation and maintenance of the District's water transmission or distribution lines and appurtenant facilities, existing and future; provided such lines and facilities cross Applicant's real estate and are either adjacent and parallel to the right of way for a public roadway or are adjacent and parallel to Applicant's property boundary.

8. A separate meter shall be installed for service to each residential or business unit. Applicant will not permit anyone else to connect to the District's water line and meter or Applicant's service line without the prior written consent of the District.

9. Applicant acknowledges the need to avoid contamination of the District's water system by introduction of foreign water. Applicant will not connect to any other water supply while connected to the District's water system.

10. Applicant is responsible for the cost of repairing all damage done to meter tops (covers) regardless of who causes the damage (except damage caused by the District). Applicant is cautioned that many meter tops are damaged by power lawn mowers and by being run over by vehicles.

11. If Applicant's account becomes delinquent, Applicant agrees to pay the District's attorney fees and costs incurred in collecting that account.

12. Applicant acknowledges that the water distribution main from which Applicant is to receive water service is subject to the following Special Extension Agreement, which has been approved by the Kentucky Public Service Commission, and which shall be a covenant between the District and all of the District's customers who receive their water service from the distribution main constructed under this Special Extension Agreement.

NOV 1 1993

WOODLAWN PROJECT
SPECIAL EXTENSION AGREEMENT AND
EXISTING METER CONTRACT, cont'd

13. The distribution line subject to this Special Extension Agreement is generally described as the line running along Woodlawn Road, Bardstown Trail, Kentucky 1472 (Hickory Ridge Road), Samples Road and Crawford Road in Shelby and Anderson Counties. The exact description of the line subject to this Extension Agreement is shown on construction plans which shall be kept on file at the District's office until this Special Extension Agreement terminates. The District shall display at its office in a prominent manner a color-coded map showing the general location of the lines subject to this Special Extension Agreement.

14. Distribution line extensions are normally paid for in lump sum, up front contributions by the initial customers to be located on that line. Applicant acknowledges that this Special Extension Agreement is an alternate method of financing the subject line in order to avoid payment of an initial lump sum construction charge.

15. The estimated construction cost of the Woodlawn project which consists of Woodlawn Road, Bardstown Trail, Kentucky 1472 (Hickory Ridge Road), Samples Road and Crawford Road in Shelby and Anderson Counties is \$270,000. The exact construction cost will be available at the District office. The District has arranged to finance this construction by a loan from the KACo leasing trust amortized over a twenty year period (with a balloon payment due in ten years) at 5.8% interest. A portion of this loan will be repaid by the District, and the balance of this loan will be paid by all customers located on the subject line in the manner set forth herein.

16. Applicant agrees that, in addition to Applicant's regular water bill, Applicant will pay a surcharge of \$9.00 per month for each meter. The District will place this surcharge in a special federally insured, interest bearing account from which the loan payments will be made. All customers receiving water service from the subject line will be required to begin paying this surcharge with their initial monthly water bill. The surcharge will continue to be collected by the District from all such customers until it is estimated that the District has accumulated sufficient funds in the escrow account to make the remaining loan payments. At this point the surcharge will be suspended for all customers. In the event the escrow account does not contain sufficient funds to make all loan payments, the surcharge will be reinstated by the District for all customers for a sufficient time to generate additional escrow account funds to repay the loan. It is anticipated, although not guaranteed, that the surcharge will continue for approximately twenty years. Applicant understands that the duration of the surcharge depends upon many factors, including the actual cost of construction, the interest collected by the District on the escrow account, and the number of meters paying the surcharge at any given time.

17. The District will not make any contributions toward the construction cost under the fifty foot rule set forth in 807 KAR 5:066 §12 and the District's Rules and Regulations. The Applicant will not be entitled to any refund of any portion of the construction costs of the distribution line extension.

* * *

18. By signature hereon, Applicant acknowledges that he/she has read this entire document, received a copy thereof, agrees to be bound by same, and acknowledges that this is the entire agreement between the parties and that there are no oral agreements between the parties.

WITNESS the hands of the parties this ____ day of _____, 19____.
